No. 5 S—Demobilization—Post War Settlement in civil life of British ranks.—With reference to India Order Special, No 37-S, dated 12th December, the procedure in regard to Army Forms Z 15 and after receipt by the Ministry of Labour is as follows —

As soon as the forms are received endeavours will be made to find employment for applicants or to verify any promises noted on the forms. When employment has been found or promises of employment verified Release Slips on Army Form Z-15 A in the case of officers, and Army Form Z-16 A in the case of soldiers will be forwarded to the Officer Commanding under whom the officer or soldier may be serving. These forms when received will be the authority for the individual's release at the earliest date possible irrespective of the Trade category to which he belongs.

Owing to the length of time that must elapse in the of this (being in India before any Release Slips can be issued, the War Office have sanctioned as a temporary measure the utilization, in lieu of Release Slips, of letters from former employers containing definite promises of re-employment which have been submitted to and stamped by the Local Branch of the Appointments Department of the Ministry of Labour in the case of officers, and the Local Advisory Committee which works in connection with the Employment Exchange of the District in the case of soldiers and then sent to the individual.

Such guarantees of re-employment obtained by officers or soldiers on leave in the United Kingdom after submission and stamping by the authorities named should in the

case of officers be sent to the Secretary War Office, and in the case of soldiers to the Record Office concerned *at least five days* before the expiration of the applicant's leave. Arrangements will then be made for the individual's demobilization.

4 The above instructions do not apply to soldiers serving on pre-war regular attestations with colour service to complete.

5 Units will submit through the usual channel weekly numerical returns of officers and men who have received either Release Slips or Guarantees of employment as above. Superior Formations will consolidate the returns and General Officers Commanding Divisions and Independent Brigades will forward consolidated returns to the Adjutant General in India so as to arrive in the Adjutant General's Branch on the Wednesday of each week. *Ad* returns need not be submitted. Orders for embarkation of the men included in such returns will be issued from Army Headquarters.

(iv) Unit and formation commanders will include on their A F Z -8 all personnel actually present with the unit or formation on a date that will be notified later. No sick or wounded officers or men admitted to a medical unit or officers or men selected as demobilizers or pivotal men will be included

6 The above instructions are not to be taken as an indication that general demobilization is imminent. They are intended to provide the War Office with the necessary data to enable detailed orders for the return to United Kingdom and relieve from military service of all ranks in accordance with the Industrial requirements of the Empire when general demobilization is ordered

HIS EXCELLENCY THE COMMANDER-IN-CHIEF
IN INDIA*Am. Headquarters Dec 1, the 3rd February 1919.*

No 15-S — Passages — Sea — Owing to the present lack of transport sailing direct to the United Kingdom and to the want of accommodation in Egypt for women and children while awaiting transhipment in that country, officers accompanying their families and families proceeding to the United Kingdom unaccompanied by the head of the family are at present obliged to travel by private steamer.

Until further orders, therefore, officers applying in India for entitled passages to the United Kingdom for their families should submit applications to the Local Passage Committee as well as to the local Military authority. The latter will forward the applications received by him if approved, to the Embarkation authority concerned.

2 Local Passage Committees have instructions to consider applications for passages by private steamers submitted to them on behalf of families who are entitled to free passage at Government expense on their merits as compared with applications submitted by the general public, but the fact that an applicant is entitled to free passage at Government expense does not, of itself, constitute a claim for priority. Passage Committees grant certificates of priority to applicants according to categories and applicants are then required to apply direct to the Agents of Steamship Companies who have agreed to allot accommodation according to the priority shown by certificates.

3 Officers and their families who are entitled to free passage to the United Kingdom at Government expense after obtaining passage by private steamer in accordance with the above procedure, should not pay the cost of the passage to the Steamship Company. They should instruct the Steamship Company to refer to the Embarkation

authorities at the port from which the vessel is sailing, and the latter will arrange for payment to be effected by Government.

4 Indulgence passages are not provided by private steamer. Passages obtained as above by other than "entitled" officers and families must be paid for by the individuals concerned.

The following provisional rule dated the 7th January 1919 have been passed by His Majesty's Secretary of State for India in Council to come into operation forthwith for the appointment of the Indian Civil Service otherwise than by the annual Open Competition (which will still continue to be held) of British subjects who have during the war served in His Majesty's Navy, Army, or Air Forces. It will rest with the Civil Service Commissioners to determine whether candidates are qualified in respect of nationality, age, character, education and war service as defined in the following Regulations —

1. (a) Every candidate must be either a British subject or a ruler or subject of any State in India in respect of whom the Governor-General in Council has made a declaration under section 96 (a) of the Government of India Act, 1915, as amended by section 3 of the Government of India (Amendment) Act, 1916.
- (b) If the candidate (being a British subject) or his father or his mother was not born within His Majesty's Dominion and allegiance, the father must at the time of the candidate's birth have been a British subject or the subject of a State in India and still be (or have continued to be until his death) a British subject or a subject of such State.
- 2 Every candidate for appointment to be made under these Rules must have served in His Majesty's Naval, Military, or Air Forces during the war for at least one year, or if his service be less than one year, have been retired or discharged on account of wounds or sickness resulting from such service.
- 3 Every candidate must have been born on or after the 2nd August 1891, and on or before the 1st August 1899.
- 4 Every candidate must be of good character in civil and military life.
- 5 Every candidate must have received continuous and systematic education of a high type until at least the age of 18, and must produce satisfactory evidence that if he has not received University education, he would have been justified in proceeding from school to a University with a view to taking high honours.

6 Candidates must submit to the Civil Service Commissioners an application in the form prescribed by them, and pay on application such fee as is appointed by them.

7 Candidates who appear from their forms of application to be *prima facie* eligible for appointment to the Indian Civil Service will be subject to such test as the Civil Service Commission may prescribe in the way of (a) a qualifying examination written or oral (b) the production of written evidence including school record university record (if any), military record, and personal references (c) interview by Selection Board; (d) medical examination.

8 Candidates recommended by the Civil Service Commissioners will be accepted by the Secretary of State for India in Council as Selected Candidates for the Indian Civil Service subject to any further enquiries that he may find it necessary to institute, and will be required to undergo such period of probation as may be hereafter prescribed. At the end of this period of probation they will be tested by the Civil Service Commissioners, or by an authority in India specially empowered in this behalf, in Indian Law and Languages, and in any other subjects which may be prescribed, and in riding. They will not be appointed to the Civil Service of India until they have been certified to have fulfilled these tests.

9 In pursuance of section 2 of the Rules Publication Act, 1893 (56 and 57 Vict. c. 86), the Secretary of State for India in Council certifies that on account of urgency the foregoing rules are made as provisional rules to come into operation forthwith.

Note—Candidates are cautioned that applications should not be sent to the Civil Service Commission until forms are available.

The following notice issued, by the Civil Service Commission is also published for general information:—

CIVIL SERVICE COMMISSION

RECONSTRUCTION SCHEME OF SELECTION FOR CLASS I OF THE HOME CIVIL SERVICE INDIAN CIVIL SERVICE, EASTERN CADETSHIPS JUNIOR APPOINTMENTS, OFFICERSHIPS OF CUSTOMS AND EXCISE

The Civil Service Commissioners announce that the holding of competitive examination for appointments to the higher division class I and to certain other classes of the Civil Service will not be resumed for at least two years after the cessation of hostilities and that vacancies in these classes will be filled in the meantime by a process of selection by a Board, the principle of open competition being maintained so far as practicable.

This decision has been reached by the Government in accordance with the recommendations of Viscount Gladstone's Committee on recruitment for the Civil Service after the war. While it is considered to be essential that the intellectual standard of candidates for class I of the Home Civil Service, to which so much importance was attached by the Royal Commission on the Civil Service, should not be lowered, it is manifest that owing to the general interruption of academic studies during the war there will be comparatively few persons of suitable age during the two or three years following the termination of hostilities who will have received a complete university education. On the other hand it is clearly the duty of the State temporarily to adapt its system of selecting candidates for the Civil Service to the altered conditions of the war. It is most opportunely served by the Government of the day in any competitive examination approaching the standard required for class I appointments and indeed no examination could be imposed upon them which aimed at more than a qualifying test of their proficiency in such subjects as they ought all to have learned before the war, and ought not to have forgotten.

Class I

It is estimated that there will be at least 100 vacancies in class I to be filled during the two years following the cessation

Candidates who under this scheme enter the Service at an age above the normal maximum of 21 years will be allowed one increment of salary for each year of their age above 21 at the date of their qualifying examination.

Indian Civil Service and Eastern Cadetships

From a hundred to two hundred vacancies in the Indian Civil Service will be filled concurrently with vacancies in Class I *process,†*
subject *ness and*
other *down for*
that Service.

Eastern cadetships under the Colonial Office will be awarded by a like procedure; the number of vacancies cannot at present be announced.

One fee of ten shillings will cover applications for Class I of the Home Civil Service Indian Civil Service and Eastern Cadetships. Success situations offered which they may b by the Selection Board.

Junior Appointments and "Officers of Customs and Excise"*

Such vacancies as it may be necessary to fill otherwise than by promotion from other grades of the Service, during a period following the termination of hostilities which will be defined later to the various classes of "Junior Appointments, commonly known as Intermediate Posts, will be filled by a similar process of selection from candidates between the ages of 18 and 22 who comply with the conditions (iii), (r) and (ii) laid down with respect to Class I posts and make application in the form prescribed by the Civil Service Commissioners accompanied by a fee stamp of seven shillings and six pence. Successful candidates will be allowed one increment of salary for each year of their age above 18 at

1 if they so desire on attaining the requisite age

* A few vacancies will be filled in each year by means of the usual Open Competitive Examination.

Vacancies in the class of "Officers of Customs and Excise" will be filled in a similar way by selection from candidates who were born on or after the 1st September 1893 and have attained the age of 17. The entrance fee for this competition will be five shillings. One increment will be allowed for each year of age above 17.

The qualifying examination, both for 'Junior' appointments and for the class of Officers of Customs and Excise will be similar in character and scope to that for Class I, but of lower standard.

The Regulations for the several Services are under consideration by the Civil Service Commissioners and the Departments concerned. It is hoped that they will be ready early in the new year and intending candidates should write after the 15th of January to the Secretary, Civil Service Commission, 6, Burlington Gardens, London, W. 1, for the Regulations and Application Form for the class or classes of appointment in which they desire to compete.

All intending candidates should apply as soon as possible after the date stated in the preceding paragraph. The qualifying examination of those who are at present under age will be fixed for a date when they are of age. Those who wish to postpone their examination for the purpose of university study or other reason will be given an opportunity to apply for sanction for the postponement.

16th December 1918

Adjutant General in India

2 The first qualifying examination under the Reconstruction Scheme for Junior Appointments (or Intermediate Grade) will begin on Wednesday the 7th of May 1919, and will be held in London, Edinburgh and Dublin. Candidates required to attend will in due course receive the necessary instructions including a copy of the Time Table of the examination.

3 In each case the Selection Board will sit about a month after the examination and will sit in London only. The "Competition" consists in the selection by the Board of the candidates judged to be most suitable on the evidence afforded by the interview and their records. Candidates required to attend will be duly instructed.

4 Candidates may, with the consent of their Commanding Officer, be allowed to sit for the examination in any of the three centres.

An officer who holds a permanent commission can only become a candidate with the sanction of his Commanding Officer.

5 These examinations being qualifying and not competitive, no candidate can be credited with service marks such as are allowed to civil servants in certain competitive examinations. The weight to be attached to service in a Government Department is a matter for the Selection Board.

6 Candidates who being medically unfit have served in a Government Department instead of with the Forces must be recommended by their department. This recommendation should not accompany the Application Form but should wait until the Civil Service Commissioners ask for it.

7 The Commissioners cannot advise candidates as to methods of preparation for these examinations, in fact the examinations are intended to be of a nature that does not require special preparation. Some indication of the nature of the examination may be obtained from the Reprint of the Question Papers used on 4th February 1919 for the examination of candidates for the Foreign Office and Diplomatic Service, which will shortly be published by His Majesty's Stationery Office at Imperial House, Kingsway, London, W. C. and other addresses.

■ The Commissioners cannot pay the fares of candidates or other expenses incurred in connection with an examination or interview

9 As regards the suggestion that places should be found for all ex-soldiers in the Civil Service it is necessary to point out that there are about 5,000,000 *ex* soldiers and the number of appointments made in a year to the Civil Service is about 10,000, including women

10 The second qualifying examination under each of the above schemes will probably take place in the autumn of 1919. The Home centres will be the same as for the first examination and there may also be overseas centres. The selection Board will sit about a month later and will interview such candidates as are then ready. Other candidates will be interviewed later

11 The Reconstruction Schemes will remain in force sufficiently long (at least two years from the declaration of peace) to allow of the candidature of persons in the most distant parts of the world. These no less than persons nearer home must fill up the Application form with their own hands. The filling of vacancies will be spread over the period during which the Reconstruction Schemes are in force so that the candidates who are demobilised last shall have as good a chance of entering the service as those who are demobilised in the earlier stages

12 *Permanent Civil Servants*—While in the exceptional circumstances of the Reconstruction period it is impracticable to preserve all pre-war privileges such as that of the permanent civil servant to enter for open competitive examinations for higher posts at an age above the normal and without question of the nature of their education, compensating advantages are provided in—

- (1) more extensive special promotion within a Department in accordance with the recommendation of the Third Interim Report of Viscount Gladstone's Committee on Recruitment for the Civil Service after the War and
- (2) in special promotion from one Department to another in accordance with Treasury Circular No. 4155 of 29th January 1919

As further open competitive examinations for the Second Division are unlikely, the Assistant Clerks have the further advantages that any appointments to the Second Division in the future will most probably be made from their ranks.

8 *Records*—All re-enlistments, grant of bounty, grant of leave, or bounty in lieu of leave will be published in Part II Orders. 10 A man re-enlisting will be discharged automatically as from the date prior to re-enlistment and will in due course receive a certificate of discharge from his present engagement. As explained in paragraph (5) (F) above this discharge in no way prejudices the man's position as regards pension and discharge with a view to re-enlistment and will not be held to constitute a break in service for pension.

11 In any case where there will remain uncompleted at the termination of the period of re-enlistment any portion of a man's present engagement, a man re-enlisting will be allowed, if he so desires, to enlist into the Army Reserve to complete such period.

12 A man who re-enlists will not be allowed to purchase his discharge during the period for which he was so re-enlisted.

13 The bounty to the extent admissible on re-enlistment will be paid to each man at once on his signing the prescribed attestation form or, at his option, placed to his credit in the Post Office Savings Bank, advances for this purpose may be drawn from the civil treasury on the authority of a station order and adjusted hereafter with the Military Accounts Department.

14 Cancellation of extension of service or re-engagement made prior to date of this Order for the purpose of re-enlistment with bounty is inadmissible.

15 It should be distinctly understood that application on the part of a soldier to re-enlist does not necessarily imply acceptance. The "C O" as defined in paragraph 391,

King's Regulations, will be the approving authority in each case.

10 Separate instructions will be issued in due course regarding returns required of numbers re-enlisted under the terms of this Order

GOVERNMENT OF INDIA.

HOME DEPARTMENT.

NOTIFICATION.

No. 912.

Simla, the 10th May 1919.

The following Proclamation by His Excellency the Governor General dated May 10, 1919, is published for general information:—

PROCLAMATION.

His Excellency the Viceroy and Governor General of India, in the name of the King of Afghanistan, the steadfast policy of his wise predecessors, has resolved to make a sudden and wanton attack upon the peace of India.

His Excellency believes that this surprising folly is due directly to the course of internal events in Afghanistan which followed upon the murder of His late Majesty the Amir Habibullah. A powerful section of opinion in Afghanistan is not satisfied that the true culprits have been brought to account and resents the method in which punishment was meted out. The growth of this internal dissatisfaction is the reason which, His Excellency believes, led Amir Amanullah to his present rash adventure, in the hope of distracting his subjects' minds from internal discontents. But there is also reason to apprehend that the present breach of faith with India may be in part the long delayed fruit of the efforts of friends of Germany in Kabul who failed in all their endeavours to seduce the judgment or shake the loyalty of the late Amir. Whatever the cause, however the results are apparent.

Evidence is in His Excellency's hands which shows that the Amir excuses his act of treachery by pretending that India is in a state of revolution which will rest on his own country. The Amir has professed to his people that in India neither men's property nor their religion is safe; that three men are forbidden to speak together; that Muslims are excluded from their mosques and Hindus from their temples. Every man in India knows that these statements are false. Relying on such misstatements the Amir has called on Hindus and Muslims alike to show him allegiance. He has also caused it to be falsely stated that Sikhs have fired on British troops; that Germany is about to recommence war; and that the English have been destroyed. The Viceroy has also proof that the Amir has caused to be prepared false leaflets and proclamations of this kind for dissemination in India and has made plans to corrupt such newspapers as he hoped might be willing to be bought.

Inspired by these futile hopes of seducing His Majesty's subjects from their allegiance the Amir has already commenced military operations. Yesterday Afghan troops were driven back by our forces from various points which they had

the Amir has ventured to measure his strength against that of a power which has just emerged victorious from the greatest war ever fought. The Government have overwhelming

strength at their disposal and this wanton and criminal incursion will meet with the speedy punishment that it deserves. Meanwhile His Excellency the Viceroy having thus taken into his confidence the people of India bids them to abstain from believing the false rumours which the enemy seeks to circulate to do nothing to impair the public confidence and to refrain from any conduct which may add to the burden of his Government. They have in times now long past had sorrowful experience of invasions from the North-West Frontier. From any repetition of those miseries the power of the Government has always been and is well able to protect them. In the name of the King Emperor His Excellency the Viceroy enjoins all loyal people to assist his Government in crushing the enemy of the peace of India, and to refrain from any action which might give colour to the false stories so assiduously disseminated.

ORDER OF THE DAY NO. 1.

GENERAL HEADQUARTERS.

12th May 1919.

The soldiers of the Empire, both British and Indian, have suddenly been called to defend from Afghan aggression the frontiers of India on which an unwarranted attack has been made without any warning or cause.

His Excellency the Viceroy has therefore ordered troops to proceed at once to the Frontier to punish those who have had the temerity to violate Indian soil. Troops are now being assembled in large numbers for this purpose. The Indian Princes and the Durbar of the State of Nepal have offered their troops to punish the enemy who so foolishly and treacherously tre-passed in our territory.

When our soldiers are ordered to resort to war, they do so for the purpose of sustaining the honour and dignity of His Majesty the King Emperor, whose soldiers they are.

The Indian Army has fought valiantly in every theatre of war during the past four years; the officers and soldiers are

rich in the experience they have gained. I am therefore confident that the Army will fight with the splendid spirit it has always shown to punish effectively this treacherous enemy who have had the insolence to challenge the supremacy of British and Indian soldiers.

INDIA ARM. ORDER

BY

**HIS EXCELLENCY THE COMMANDER-IN-CHIEF
IN INDIA.**

A J. H. 11/1 ut s, Simla, the 2nd August 1919

No 683 Demobilization—British—The following telegraphic memorandum on the subject of Demobilization by the Secretary of State for War has been received and should be communicated to all concerned—

(1) Six months have passed since a memorandum was used explaining to troops the arrangements necessary for the armies of Occupation and the principles that would be followed in demobilizing the great army of the war period. The plan then unfolded is well known. It may be briefly summed up as follows:—1, let three men out of four go and pay the fourth man double to finish the job, these four men being picked out of those who had not joined up before 1st January 1916, had not passed their 37th birthday and had not got three or more wound stripes. It was prolonging the compulsory military service of all men kept under above plan until 30th April 1919, after which they were to be released with all convenient speed. This law has now been made.

2 Any one can see for himself to day how necessary it was to this Peace is all out to be satisfied, and but for this Plan we should in a few days be absolutely defenceless and without any kind of military organisation. We should have no arms at all to garrison our Empire and the new provinces for which we have become responsible or to make sure that the Germans keep their word. We should have thrown away not only all that we have worked so hard to gain in this great struggle but also all that the British Empire had acquired before the war. If is lucky that we took the steps we did.

3. Meanwhile, the old pre-war voluntary army is being re-made as fast as possible. Towards re-making of this Army

121AO

we have already obtained 202 000 volunteers for periods varying from one to nine years. These men are being fed to form 15½ Battalions, 25½ Batteries and 81 Cavalry Regiments in addition to other necessary units. But this takes time especially as the men who re-enlist are entitled to two or three months leave before they join up for duty.

Volunteering on the whole has been well maintained and has lately improved. The average weekly intake of recruits and re-enlisted men is more than four times what the usual rate was before the war. If this goes on it is likely that all men who actually fought in the field in war will be released before the new Military Service Act expires, and it is hoped that a very large proportion will have been released before the end of the present year. Thus we should be able to provide for the defence of the British Empire in 1920 entirely by volunteers for the Regular Army and young recruits who did not join in time to share in the fighting. The above is not a pledge in any sense of the word because no one can foresee what will remain supreme to take common safety. It is, what we believe is likely to happen and what we are trying to bring about.

4 Already since the Armistice nearly three million men have been demobilized leaving altogether in the army 100 000. These are 10 Divisions of the Black Army of India (temporarily detained in India) 76,000 Home Army including Ireland, the volunteer Regular Army now being formed and about 100 000 non-effectives sick and wounded, and men awaiting demobilization 531 000 Detachments in Russia 17 000 Detachments in Italy 7 000

We now have

ed by the
follows:—

1 Divisions
This will
in France
as German

prisoners have been sent home the men who are guarding

them will become available. Altogether by November 1st it is hoped that the Force in France and Flanders will have been reduced by more than 100,000 men. Owing to the evacuation of the Caucasus, which will take place in the autumn, British troops in the Army of the Black Sea (which is the Army enforcing Peace on Turkey and Bulgaria), will be reduced by 10,000 men. All Troops in Russia, except those who volunteer to join the Military Missions will be brought Home before the winter, and those who were in North Russia during last winter will it is anticipated start for Home in September excepting always such men as may volunteer to stay. Nearly 200,000 men will be relieved from the Army establishment as German prisoners return Home, wounded recover, and demobilization proceeds. Thus by the end of the year the British Army which is now 1,200,000 will be reduced to about half that number.

6 There are two parts of the world however, where we cannot at present reduce our armaments. In the Middle East including Egypt and in India where Afghans and Bolsheviki agents are making trouble we must maintain our forces at full strength. But these are also the very places where there is the largest proportion of men who have been away from their homes for the longest time. As we cannot reduce these men we have to replace them. Before we can bring them

Home -
 fi
 al
 m - - - - - it is expected that the Regular Troops who are to form the permanent garrisons of India will all be despatched by the end of this year to release the present temporary garrisons. The regular units are now being sent out two or three battalions every week, and they will relieve an equal number of demobilizable men whom we have hitherto been forced to retain in India. First among those to come Home from India will be those who were already on their way from Mesopotamia, and who were stopped in India on account of the outbreak there. We have not yet however, got enough volunteer regular units ready to be able to provide reliefs of volunteers for the armies in the Middle East including Egypt. It is necessary therefore that drafts should be made up out of retainable men of the Armies of Occupation who may become surplus on the Rhine, or in France and Flanders, or at Home to go out to the Middle East.

relieve their comrades who have been away from Home so much longer and are entitled to demobilization. These reliefs will not however, be kept abroad indefinitely they will in their turn be relieved as soon as the Regular Troops have been organised and can take over from them.

All sorts of suggestions have been made as to the order in which men should now be released from the Army, and there are many hard cases both compassionate and pivotal which deserve attention. But the time is getting short now the end of the task is coming into sight and it is better to keep to certain broad and simple rules which everybody can understand even if individual cases of hardship are missed. The following therefore are the rules on which we shall now proceed — (i) Definite orders have been issued that all 1914 men except those in India and any there may be in Russia shall begin their journey Home within one month of the signature of Peace namely, by the 25th July and that all 1915 men and men over 37 years of age except those in India and Russia shall start for Home within two months.

All other

demobilization

men within three months of the signature of Peace namely by the 25th September. The above programme of releases will apply equally to men who, although demobilizable have hitherto been retained for essential purposes usually described as "machinery of demobilization" but will not of course apply to men although eligible for demobilization, have volunteered to stay on for a period with the Armies of Occupation. (ii)

All Derby

men

will have begun

(iii) All 1914 and 1915 men and all Derby men who joined the colours before the 1st July 1916 who are in India will similarly have started for Home by the 1st December if not released earlier provided always that no unexpected trouble occurs in that country. (iv) All troops in Russia who have not volunteered to join missions will have started for Home before the winter as already explained. (v) As from the 1st July no conscript soldier will be sent to India or Mesopotamia, and no Derby men will be sent further from Home than the Army of the Rhine.

8 Finally, it is hoped that it may be found possible to release in the early spring of next year all the remaining men of all classes who fought in the war, that is to say, embarked for any theatre of war or garrison abroad before the Armistice was signed excepting always such as may have volunteered to continue serving. It is impossible, however, at this distance of time to make any definite plans in this respect; moreover, it must be clearly understood that if Peace is not ratified or if the ratification is delayed, or if the Germans break out again, or if there are risings in India or Egypt, or serious trouble in Turkey, the above programme will have to be modified and here and there may be shipping delays. But assuming all goes well we have every hope and intention of being able to give effect to it

ORDER OF THE DAY. NO. 3.

GENERAL HEADQUARTERS,

15th September 1919

The rectification of the boundary separating Afghanistan
from British India having now
been concluded, the main frontier
campaign of 1919 comes to a close. The area in which
operations were forced on us extended over 500 miles,
served in many parts by sparse railways. A
campaign has been conducted
tances, for not only has the se
record, but the call to arms came at a time when many of our
soldiers were in enjoyment of the leave so well earned and
so long denied them and others were looking forward to early
demobilisation.

The enemy rarely gave us an opportunity of meeting him
the superior dis-
and artillery fire,
wanders, regimental
overcome opposition
with much ease. No greater testimony could be adduced of
the military spirit prevailing than the cheerfulness with
which all ranks accepted conditions of climate and the dis-
comforts inevitable in the opening stages of a campaign.

I have, in other orders of the day, expressed my complete
satisfaction with, and admiration of, the conduct and splendid
endurance displayed under such trying conditions by the
troops, British and Indian, including those of the Royal Air
Force, the Ruling Princes and Chiefs and our allies the Nepa-
lese, and also the Constabulary and the Frontier Militia and

remained staunch. It will be my pleasing duty to record my appreciation of their services in an official despatch, and also those of the political officers on the Frontier and on the staffs of the forces. I wish, however, to take this opportunity to tender my thanks for the services rendered by the Railway Administration throughout India and especially to the North Western Railway for the admirable manner in which they have met the excessive calls made on them, and for the untiring energy which made the concentration and maintenance of so large a force possible to the Postal and Telegraph Departments which met the additional demand on their already strained resources with their characteristic energy and devotion to the direction of continued military hospital, but to all where help was needed and to the Comforts for the Troops Fund and the Y M C A, who at once brought the whole of their admirable organisation into play to ameliorate the conditions of the troops serving under such adverse circumstances; my thanks are also due to the number of contributed with unremitting endurance by the troops. me in a tribute to the message of sympathy to their relatives.

RATES—*contd*

Rank.	British Service, Cavalry Artillery and Infantry	Indian Army (Regimental pay of rank).
	Rs.	Rs.
Lieutenant	475 per mensem	475 per mensem.
Lieutenant after 7 years com- missioned service	560 " "	560 " "
Captain	750 " "	700 " "
Captain after 9 years com- missioned service	730 " "	750 " "
Captain after 16 years' com- missioned service	850 " "	750 " "
Major	900 " "	900 " "
Major after 5 years service in that rank	1,050	850 " "
Lieutenant-Colonel	1,250 " "	1,150 " "

2. The command allowance for a Lieutenant-Colonel of the British Service will be Rs. 350 per mensem instead of Rs. 400 as at present. Company command pay will not be given to officers of the British Service in addition to the revised rates. The revised rates of pay for the British Service will also absorb all special allowances such as the allowance of Rs. 25 per mensem granted to officers commissioned from the ranks, the lodging allowance of Rs. 35 per mensem granted to the same class of officers and the allowance of Rs. 2 and Rs. 1 per diem granted to subaltern officers during the War, but they will not absorb allowances such as adjutant's allowance.

3. The rates of pay shown above in the case of the Indian Army represent pay of rank. In addition, officers of the Cavalry Artillery and Infantry Branches of the Indian Army will continue to receive staff pay at existing rates and under existing conditions.

4. The Army of Occupation bonus is not admissible concurrently with these new rates of pay, but in cases in which the old rates of pay, *plus* the Army of Occupation bonus, are more favourable they may be retained for so long as the bonus continues to be issued.

5. Officers eligible for children's allowance under the old rates of pay will continue to receive the allowance under these revised rates up to the 31st December 1919; the position thereafter will be reconsidered. This is subject to the proviso that in the case of Indian Army Officers the grant of children's allowance will continue to be regulated by the same salary limits of Rs 500 and Rs 625 per mensem.

6. No additional pay will be given for brevet rank to British Service Officers in India.

7. Horse allowance as a separate item will continue to be paid to British Service Officers not in receipt of staff pay when they are required to maintain chargers.

8. The new rates of pay will not carry any claim to exchange compensation allowance.

9. Consequent on the increases in the sterling rates of pay granted to Officers of the British Army at Home, privileges previously in force in the matter of British Income Tax are to be withdrawn at the end of the present financial year and all such officers will then share the ordinary liability to the tax. Following this precedent the Government of India propose at the first convenient opportunity to cancel, in respect of the classes of military officers who benefit by the present revision of pay, the provision under which salaries not exceeding Rs. 500 per mensem are exempt from Indian Income Tax.

10. Officers of the Indian Army will, as hitherto, maintain such tents and camp equipment as may be necessary for the performance of their military duty.

11. Officers in occupation of public quarters will in future be liable to pay the assessed rent thereof subject to a maximum of ten per cent of their salary.

12. The revised rates of pay for officers of the British Service will, for the present, apply only to the Cavalry, Artillery and Infantry.

13 Officers holding staff or departmental appointments the emoluments of which are made up of Indian Army pay of rank and staff pay are eligible for the revised rates of pay of rank, in addition to their existing rates of staff pay, provided that for the present the total salary does not in any case exceed Rs 1,900 per mensem. This limitation is imposed provisionally pending consideration of the question of revising the rates of pay of general officers the full material for which is not yet available.

14 Officers holding staff or departmental appointments the pay of which is consolidated will continue to draw pay as at present, but it is proposed (except in the case of general officers whose rates of pay are still *sub judice* vide paragraph 13 above) to undertake immediately a revision of these consolidated rates on the basis of the increase in pay of rank granted to regimental officers

15 The rates of pay of — — — — —, etc.
as well as for officers of incent,
the Veterinary Service Corps
are still under consideration

16 Indian Army Reserve of Officers and others holding temporary commissions are eligible, if belonging to the Cavalry Artillery or Infantry, for the revised rates of pay; the gratuities of those now serving will when they are demobilised be calculated at the old rates.

17 In increasing the sterling rates of pay at Home the War Office have applied different rates of lodging allowances for bachelors and married men respectively. This matter will be taken into consideration in dealing with the permanent scale of pay for British Officers of the Army in India. The information was not received in time to permit of provision being made for this differentiation in the temporary rates of pay which it is desired to announce immediately.

After a soldier has been enlisted for a trade in one of the groups he will be eligible for advancement in that group to a higher class or rank but will not be transferred to any other group unless he is remustered in another trade in a different group. Soldiers of the rank of private will be classified according to qualifications. There will be universal standard tests for each trade for all arms, and soldiers will be placed in their

appropriate class according to their qualifications. Should a soldier after having been placed in a class subsequently fall below the standard prescribed for that class or fail to show diligence in his duties he will be degraded to a lower class or he may be removed from the tradesmen's groups altogether.

Increments dependant on service will be subject to a satisfactory standard of military efficiency. Service in a class will count for increment in any higher class to which the soldier may be promoted.

No soldier will be paid under paragraph 3 who does not belong to a trade shown in Table B.

7 Service during which a soldier is paid under paragraph 2 will count for increments under paragraph 5 in the case of transfer to a tradesman's group.

8 Clerks hitherto paid under Articles 821, 805, 880 and 1009 Pay Warrant, will be paid as tradesmen. In the absence of instructions to the contrary promotions by time will continue as laid down in those Articles, but no increments will be given for length of service in a particular rank. The question of increments and conditions of promotion generally for clerks are under consideration and are subject to revision.

9 The term regimental quartermaster sergeant in the tradesmen's groups denotes quartermaster sergeant who are in charge of stores or equipment for a group of companies or equivalent units and such other cases as may be specially authorized by the Army Council.

20 Subject to paragraph 16, soldiers now serving will be entitled to continue in receipt of their present rates of pay, if higher than those now approved, under the same conditions as hitherto in force during continuance of their

present engagement, but this confers no claim to the continuance of special war emoluments or concessions, e.g., Army of Occupation bonus and war pay, beyond the date of their general abolition

in the case of the following ranks, which are to be discontinued in the future

TABLE 4.

Conditions for the issue of Proficiency Pay

1 All soldiers (except boys) up to and including lance-serjeants who draw pay under sub-section (i) of paragraph 1 of Table 1 are eligible for proficiency pay, with the exception mentioned in paragraph 2 below. Soldiers up to and including lance-serjeants who draw pay under Table 2 and are not paid at tradesmen's rates are also eligible. Soldiers who draw pay under sub-section (ii) of paragraph 1 of Table 1 are not eligible for proficiency pay.

2. The rate of proficiency pay is 8d per day

3 In order to become eligible for proficiency pay a soldier, of whatever rank, must—

- (a) Have at least 1 year's service with the Colours.
- (b) Be in all respects physically capable of performing the duties of his rank in the arm of the service to which he belongs.
- (c) Attain a standard of professional and educational proficiency as laid down from time to time by the Army Council.

4 Proficiency pay will be issuable irrespective of the length of the engagement under which the soldier is serving with the Colours.

5 Lance-sergeants, corporals and lance-corporals will not be entitled to draw proficiency pay in virtue of their rank, but will in all cases be required to satisfy the conditions laid down in paragraph 3

6 Proficiency pay may be withdrawn by a soldier's commanding officer if, in his opinion the soldier falls below the requisite standard. It may be restored if the soldier subsequently re-attains the standard from the date of his re-attaining it

7 A soldier transferred to another arm in which proficiency pay can be granted will continue in receipt of any proficiency pay which he may be drawing at the time of transfer pending the result of the next classification in his new arm

8 A soldier enlisted for service as a tradesman and drawing normal rates of pay while he is learning a trade is not eligible for proficiency pay

9 The general conditions of Articles 1006, 1007 and 1008 Pay Warrant, will apply to the grant of proficiency pay under this Warrant.

TABLE 5

Soldiers Service Pensions

1 A private's pension will be 1½d a day for each complete year of qualifying service.

2 For each complete year of qualifying service in higher ranks there will be added to the private's rate according to class for pension under Article 1134, Pay Warrant—

$\frac{1}{4}$ d	a day for each year as	Class IV
1d		Class III
$1\frac{1}{4}$ d		Class II
2d		Class I (including warrant officer Class II)
$\frac{1}{2}$ d		Warrant officer Class I

The maximum rates of pension are as follows —

	Per week.
Private	26s
Class IV	31s
Class III	36s
Class II	41s
Class I (including warrant officer Class II)	46s
Warrant Officer Class I	53s

3 Any broken period of qualifying service of less than 12 months in a rank will count as qualifying service in a lower rank, e.g. a non commissioned officer with 2 years 5 months in Class I will count 5 months on to his service in Class II

4 Qualifying service for pension will be unforfeited Colour service only including service in the Great War, mobilized or embodied service in the Special Reserve or Territorial Force given after attaining the age of 18 years

5 The additions under paragraph 2 will not be given for any higher rank than that held on discharge and that rank must have been held throughout the 12 months immediately preceding discharging

6 A total of 21 years service is necessary to give a right to pension, but a minimum of 10 years' qualifying service is also required. A soldier must be serving with the Colours on final discharge or on ceasing to count service

7 A soldier re-engaged to complete 21 years, or who has re-enlisted to complete a term of service which with former service makes a total of at least 21 years will be allowed to take his discharge prematurely, after 15 years at his own request, may be granted a pension, if assessed as in earlier paragraphs but with a reduction of 10 per cent. If discharged for incapacity after 15 years, or less than 21 years, he may be granted a pension at 10 per cent.

not exceeding 90 per cent. of the rate as assessed in previous paragraphs—as the Army Council may approve on the recommendation of the Commissioners of Chelsea Hospital according to the merits of each case.

8 An additional pension of 6d per day will be granted (subject to good character as a pensioner) at age 55 and a further increase of 4d. at age 65

9 Soldiers granted pensions under this Warrant will remain eligible for the additional pension awarded in respect of gallant conduct provided for in Article 1157 Pay Warrant.

10 In the case of re-enlisted soldiers past service will not count if there has been an interval of more than 5 years. (This does not refer to pensioners re-enlisted during the Great War)

11 These new regulations will apply to all soldiers admitted to pensions in future. Soldiers who have been granted service pensions during the Great War and those who were service pensioners before that war and have given satisfactory and military service during that war (including service as officers) will have their present pensions re-assessed under the rules in this Table according to their service on original discharge to pension but the increased pensions will not be payable while pensioners are serving with the Colours or as officers, and are drawing pay as well as pension

12 Service with temporary rank during the Great War will count as though it were substantive rank if the soldier is subsequently promoted to the substantive rank or it may count as service in any lower substantive rank to which the soldier may be promoted. (Thus, if a private were a temporary sergeant during the war and afterwards never rose above the substantive rank of corporal, time as temporary sergeant would count as time as corporal for pension)

13 The conditions governing the grant of annuities for meritorious service under Article 1158 Pay Warrant, are under consideration.

14 A soldier now serving retains his rights under the Pay Warrant and any other Royal Warrants now in force if more beneficial to him than the terms of this Table; but a soldier must be dealt with either under this Table as a whole, or under previous regulations as a whole.

Army Council's Instructions on the foregoing Warrant.

I.

Soldiers of the South Africa Overseas Contingent in receipt of full British rates of pay and those who do not elect to remain on Union rates; and British soldiers transferred or appointed from units, the depots of which are situated in the United Kingdom, the Channel Islands, or the Isle of Man, to serve with the following units raised outside the United Kingdom, may come under the provisions of this Army Order —

The Imperial Camel Corps.

II — *Classification of Tradesmen.*

1 For the purposes of immediate classification of sappers or private under paragraph 3 of Table 1, pending the introduction of a universal standard test for all arms, the following rules will apply —

2. In the absence of instructions to the contrary the number of soldiers in each Class will be determined by the number qualified for that Class within the total number allowed for the particular trade. There will be no establishment for each class.

3. Pending further instructions clerks, other than Military Account Clerks, will be paid under Group C.

III — *Special Reserve and Territorial Forces Contingent of Service*

In the absence of special instructions the present rules as to the counting of service for purposes of increments of pay dependent on length of service will continue to apply (i.e. only mobilised service counts).

IV — *Proficiency Pay*

1. The standard of professional efficiency for the grant of proficiency pay will be published as soon as possible both for cavalry, artillery and infantry and for the soldiers drawing normal rates in Arms or Corps for which proficiency pay was not previously payable.

2. Soldiers already drawing proficiency pay Class I may draw provisionally the new proficiency pay provided they have at least one year's Colourservice. They will, however, be required to pass the tests for professional efficiency when they are published in order to continue drawing proficiency pay but in the absence of instructions to the contrary, those re-sults

will be required to satisfy all the conditions attending the grant of the new proficiency pay

ARMY ORDER

ROYAL WARRANT

A O 3
1919

Rates of Pay, Half-Pay and Retired Pay of Officers

GEORGE R I—WHEREAS We deem it expedient to revise the general scheme of emoluments of British officers of Our Army;

28
G.O. 3
4617

OUR WILL AND PLEASURE IS that the provisions concerning the pay and non-effective pay of Our Army contained in Our Warrant for the Pay, Appointment, Promotion and Non Effective Pay of Our Army, dated 1st December, 1911, and in such other Warrants granted since that date as are still in force, and the Regulations governing the Allowances of Our Army issued with Our Warrant of the 28th September 1914, as modified by such other Warrants granted since that date as are still in force, shall be amended and modified as laid down in the General Conditions and Tables appended to this Our Warrant.

The new rates and conditions shall take effect as regards pay, half pay and allowances from 1st July 1919, for all officers serving on the date of this Our Warrant, and as regards retired pay from 1st April 1919.

The rates and conditions laid down in this Our Warrant shall also apply to all officers commissioned after the date of this Our Warrant unless otherwise specifically provided, except that such officers shall not have the option of drawing any pay or retired pay under previous Warrants where the rates under those Warrants are higher than in this Our Warrant.

Given at Our Court at St James's, this 13th day of September, 1919, in the 10th year of Our Reign

By His Majesty's Command,
WINSTON S. CHURCHILL

GENERAL CONDITIONS

rates of pay, ~~shall pay, but~~ ^{if living and the} ^{be subject after}
 5 years to revision either upwards or downwards to an extent not exceeding 20 per cent according as the cost of living rises or falls. After 1st July 1924, a further revision may take place every 5 years

2 In any case in which transfer from the rates of pay and allowances hitherto in force to the new rates involves a loss of emoluments, the officer may continue in receipt of the rates of pay and allowances hitherto in force until such time as, on change of appointment or on account of increment or promotion or abolition of special war emoluments (e.g., Army of Occupation bonus) the new rates are equal to or exceed the old. An officer who has once accepted the new rates of pay or half pay will not be allowed to revert to the old rates (see also paragraph 17 of Table XIV)

3 The new rates will not be taken into account in the assessment of gratuities under Article 407, Pay Warrant under the Royal Warrant of 10th February 1919 (published in Army Order 85 of 1919) or in accordance with the terms of any special contract in connection with service during the Great War. Where dependent upon rates of pay these gratuities will be calculated on the rates of pay in force prior to 1st July 1919

4 For the most part consolidated rates of pay are abolished and in such cases staff officers, in common with regimental and departmental officers will be eligible to draw allowances under the usual conditions according to the classification of their appointments or according to their ranks if not otherwise classified.

5 Engineer and corps pay under the new scheme will be drawn only by such officers of the Royal Engineers and Royal Army Service Corps as qualify for these additional emoluments under the conditions laid down in the tables appended hereto

6 The following are abolished for all officers who draw the rates of pay and allowances provided in this Warrant —

(a) Guards pay

(b) Armament pay

- (c) Special rates for officers commissioned from the ranks
 (d) The bonus for the Armies of Occupation granted by Army Order 54 of 1919
 (e) Children's allowance as from 1st January, 1920, for all officers whether they draw the new rates or continue to draw those in force prior to 1st July, 1919

Up to 31st December, 1919 officers will not become ineligible for children's allowance by reason of the fact that the increase in pay may raise their emoluments beyond the limits laid down for the grant of the allowance. The same ranks and Staff grades and classes as are now eligible will continue to be eligible.

7 Additional pay, extra duty pay, working pay, charge pay and specialist pay — The existing rates and conditions will continue for the present, except when specifically modified by the present Warrant, but are subject to early revision. Where a rate of extra pay includes armament pay (e.g. for Hong Kong — Singapore R. G. A.) the rate will be reduced by the amount of armament pay hitherto applicable to the rank.

and
will

8 Command pay — The rates hitherto in force under other provisions specifically provided for by the present Warrant.

9 Awards for distinguished meritorious service — The future application of the fund now provided to meet the cost of awards under Article 633, Pay Warrant is under consideration.

10 This Warrant does not apply to officers of the West African Regiment or of the Royal Malta Artillery to non-European officers or to any officers who, although drawing consolidated rates of pay, are not specifically provided for in this Warrant. Such officers will pending further instructions continue to draw pay and allowances under the Warrants hitherto in force.

In Tables I to V the expression "commissioned service on full pay" and the expression "service as such" means "full pay service in the rank indicated."

GENERAL CONDITIONS

1 The new rates shown in the following tables are granted in consideration of the present high cost of living and the rates of pay, half pay and retired pay will be subject after 5 years, to revision either upwards or downwards to an extent not exceeding 20 per cent according as the cost of living rises or falls. After 1st July, 1924, a further revision may take place every 3 years

2 In any case in which transfer from the rates of pay and allowances hitherto in force to the new rates involves a loss of emoluments the officer may continue in receipt of the rates of pay and allowances hitherto in force until such time as, on change of appointment or on account of increment or promotion or abolition of special war emoluments (e.g., Army of Occupation bonus), the new rates are equal to or exceed the old. An officer who has once accepted the new rates of pay or half pay will not be allowed to revert to the old rates (see also paragraph 17 of Table XIV)

3 The new rates will not be taken into account in the assessment of gratuities under Article 497 Pay Warrant under the Royal Warrant of 10th February, 1910 (published in Army Order 83 of 1910) or in accordance with the terms of any special contract in connection with service during the Great War. Where dependent upon rates of pay, these gratuities will be calculated on the rates of pay in force prior to 1st July 1910

4 For the most part consolidated rates of pay are abolished and in such cases staff officers in common with regimental and departmental officers will be eligible to draw allowances under the usual conditions according to the classification of their appointments or according to their ranks if not otherwise classified.

5 Engineer and corps pay under the new scheme will be drawn only by such officers of the Royal Engineers and Royal Army Service Corps as qualify for these additional emoluments under the conditions laid down in the tables appended hereto

6 The following are abolished for all officers who draw the rates of pay and allowances provided in this Warrant —

(a) Guards pay

(b) Armament pay

No 85-S Reserves, Indian Army.—The Government of India have sanctioned as from 1st January 1920 the formation of a Reserve for the Indian Army [excepting the Supply and Transport Corps reserve, the Army Bearer Corps reserve and the reserve of Military Railway Companies (Traffic and Loco Section)].

2. Pending definite orders with regard to the organisation of the after war Indian Army the following instructions are issued for the formation of a Provisional Reserve. Men who join this Provisional Reserve under the conditions herein detailed must be given clearly to understand that the terms now offered are provisional only, but that they will not necessarily have any claim, by virtue of membership of the Provisional Reserve, to join the permanent reserve when formed.

3. **Organisation and Establishments.**—The Reserve for the present will consist of private soldiers only; non-commissioned officers to be admitted to the reserve only as privates. The reserve establishments are tentatively fixed as follows:—

without previous reference to the Officer Commanding the ^{regiment}_{battalion} the balance up to 100 will

or enrolments in, the reserve will be carried out. Indian ranks of the Royal Horse and Heavy Artillery may join the provisional reserve within the establishment authorised for Royal Field Artillery

4. Conditions of transfer and enrolment—Non-commissioned officers and men of the classes eligible for demobilisation fit for field service (other than musicians but including pipers, bagpipers and drummers) if they desire to do so will be permitted to transfer to the provisional reserve after completing two years or more service with the colours from the date of their enrolment provided they are not over 30 years of age. (The claims to transfer to the reserve of soldiers not yet eligible for demobilisation have not been overlooked; the limits of establishment already stated have been fixed with this in view.)

Transfer to the provisional reserve, which will be voluntary and subject to the exigencies of the Service in each individual case, will be carried out on the form shown in Annexure A' attached to this Order which also shows amendments necessary to India Army Forms K 4162 and K 1162-A. The form of transfer will be attached to the man's enrolment form.

There is no objection to soldiers who are entitled to the benefits of the 'mustering-out' rules being discharged with those benefits prior to being re-enrolled in the provisional reserve. It should be clearly explained to such men; however that previous service for which they now receive gratuity will not count towards gratuity on discharge from the reserve.

1162 as subsequently amended (see Government of India, Army Department, Gazette Notification No 3474 dated 13th December 1919 reproduced in Annexure "A" to this Order) Candidates must present themselves at the headquarters of the Officer Commanding Reservists (see paragraph 9 below) or to the nearest Recruiting Officer. If however the suitability has been certified to on their discharge certificate, or on India Army Form Demob 2 (Unit record form) (see paragraph 704 and Appendix C, Demob Orders (India) General Instructions 1919) their attendance may be dispensed with (see procedure detailed in Army Regulations, India, Volume II, paragraph 1019)

As the organisation and class composition of the after-war army has not been finally decided upon, every man now electing to transfer to the provisional reserve will be required to agree to his subsequent transfer, should such become necessary, to the reserve of any corps of his arm of the Service enlisting his class. An undertaking in this respect is included in the form shown in Annexure "A" hereto attached which each man is required to sign. It should be carefully explained to him that as far as the exigencies of the reserve of his own

9 *Officer Commanding Reservists* — For the present the "Commanding Officer" of the reservists (see Rule 2, Indian Reserve Forces Rules 1918 reproduced in Army Regulations, India, Volume II, Appendix XXVIII) will be as follows. A subsequent entry will be made if and when the man in due course is offered and accepts the terms for the permanent reserve and is transferred thereto.

The books and documents named in paragraph 1037, A. R. I., Volume II (except equipment ledger) will be maintained by the Officer Commanding Reservists. India Army Form Y-1912 has been revised as in Annexure "B" hereto attached, in order that a separate form may be maintained for each individual reservist, thus facilitating the transfer of documents when necessary.

11. *Staff Allowances*—The office allowances in respect of reservists will be drawn by the Officer Commanding Reservists on the scale authorised for the "Supervising Officer, reserve centre" in paragraph 211, A. R. I., Volume I.

12. *Arms and accoutrements* for the use of reservists on mobilization will be stored in deposit in the arsenal nearest to the unit which reservists will join on mobilization. The Officer Commanding Reservists will submit the in-let to the

Deputy Assistant Director of Ordnance Services (or Chief Ordnance Officer direct for units not in an area administered by a Deputy Assistant Director of Ordnance Services) for the arms equipment and stores connected therewith on a scale proportionate to that laid down in Army Tables, for the number of reservists to be equipped. The indent will be submitted in quadruplicate (triplicate when not submitted through a Deputy Assistant Director of Ordnance Services) and after check will be disposed of as follows:—

Chief Ordnance Officer 2 copies.

On mobilization a telegraphic demand will be sent to the Chief Ordnance Officer quoting the number and date of the checked indent.

13 *Calling out for service*—Reservists will be called out for service by proclamation by the Government of India, or by the Officer Commanding Reservists on orders from Army Headquarters; in either case notices on I A. Form Y-1954 (see Army Regulations, India, Volume II paragraph 1028) will be immediately despatched to the men by Officers Commanding Reservists.

As however many reservists may be unaware of the location of their own or other unit which they are to join and many may be absent from their homes the following procedure will be adopted. All reservists, except Gukhas who will join at Gorakhpur will be directed to proceed to the headquarters of the Divisional Recruiting Officer nearest to their homes or to the nearest Divisional Recruiting Officer if they are absent from their homes, and the instructions on

I A-Form 1-1954 will be worded accordingly. The Divisional Recruiting Officer will arrange to despatch the men, as required, to report to the Officer Commanding Reservists (as defined in paragraph 9 above)

When reservists have been called out and have arrived at the headquarters of the Divisional Recruiting Officer, that Officer, if a British Officer within the meaning of the Indian Army Act, will be so long as they remain under his command, the 'Commanding Officer' of a detachment of embodied reservists and competent to exercise disciplinary powers as such

On receiving intimation of the calling out of reservists for service, each Divisional Recruiting Officer will entertain such additional temporary establishments, civil or military, as he considers necessary to disburse quartering and ration allowances and any necessary advance of pay, as well as to despatch reservists and send intimation to Officers Commanding Reservists of the despatch of their men

The Divisional Recruiting Officer will issue to each reservist the usual allowance in lieu of a free issue of rations in kind, at the rate of 4 annas per diem quartering allowance, for the period from the date on which the reservist reports himself to the Divisional Recruiting Officer to the date he receives his first free issue of rations in kind both dates exclusive. The reservist will during this period make his own arrangements for board and lodging. The sums and dates involved in these disbursements will be communicated to the Officer Commanding Reservists to whom the reservist is ordered to report himself for duty

14 *Physical Fitness*—His Excellency the Commander-in-Chief desires to impress upon General Officers Commanding Officers Commanding Reservists and all other Officers concerned the utmost importance of ensuring that only men who are thoroughly fit physically and otherwise, are permitted to join and remain in the provisional reserve. It must be impressed upon reservists that unless they keep themselves physically fit at all times they will not be permitted to remain in the reserve

15 *Reviews*—On the first day of each month commencing with 1st February 1920, the Officer Commanding Reservists will compile a strength return, in the form shown

in Annexure "C" hereto attached and post it the same day direct to the Adjutant up-to-date an accurate is furnished to Army and therefore Officers Commanding Reservists must see that these returns are rendered correctly

10 *Men borne on the strength of the Indian Army Reserve prior to the European War 1914*—Men who are still serving and who prior to the cessation of transfers to, or enrolments in the Indian Army Reserve, consequent on the outbreak of the recent Great War, were serving in the reserve will be allowed the option of:—

- (a) remaining with or rejoining the colours in order that they may qualify for a pension provided they are fit in every respect. The whole of their service with the colours (including embodied service) and half their inactive service in the reserve will be allowed to count towards pension or gratuity. "Embodied service" for this purpose does not include any period during which they were called out for training which will be regarded as 'inactive service in the reserve';
- (b) joining the provisional reserve under the new conditions already set forth in the foregoing paragraphs provided they are physically fit and not debarred by age, or
- (c) taking their discharge, being allowed the benefit of the mustering out rules in Army Regulations, India, Volume I paragraph 1041-B, counting as in (a) above half their service in the reserve towards pension or gratuity under those rules.
